PATENT AND EXCLUSIVITY INFORMATION ADDENDUM

This *Addendum* identifies drugs that qualify under the Federal Food, Drug, and Cosmetic Act (FD&C Act) for periods of exclusivity and provides patent information that has been submitted to the Food and Drug Administration (FDA) concerning the listed drug products.

Exclusivity

This *Addendum* identifies:

- Drugs approved under section 505(c) of the FD&C Act that have qualified under the Drug Price Competition and Patent Term Restoration Act of 1984 (Hatch-Waxman Amendments) for five-year and three-year periods of exclusivity pursuant to Section 505(c) (3) (E) and Section 505(j) (5) (F) of the FD&C Act
- Drugs that have qualified for Orphan Drug Exclusivity pursuant to Section 527 of the FD&C Act
- Drugs that have qualified for Pediatric Exclusivity pursuant to Section 505A of the FD&C Act
- Drugs that have qualified for Generating Antibiotics Incentives Now (GAIN) exclusivity pursuant to Section 505E of the FD&C Act
- Generic drugs approved under section 505(j) of the FD&C Act that have qualified for 180-day exclusivity pursuant to Section 505(j) (5) (B) (iv) of the FD&C Act
- Generic drugs approved under section 505(j) of the FD&C Act that have qualified for Competitive Generic Therapy (CGT) exclusivity pursuant to Section 505(j) (5) (B) (v) of the FD&C Act

This section is arranged in alphabetical order by established name of the active ingredient, followed by the proprietary name (brand name or trade name) of the drug product. Active ingredient headings for multiple ingredient fixed-combination drug products are arranged alphabetically.

Individual descriptions of the protected use have been added to each Orphan Drug Exclusivity entry listed in the Orange Book. Such descriptions of Orphan Drug Exclusivity were included beginning with the 38th edition of the Orange Book.

For an explanation of the codes used in the *Addendum*, see the *Patent and Exclusivity Terms* Section. The exclusivity codes are general shorthand descriptions and do not necessarily identify, with specificity, the actual scope of exclusivity.

Patent Information

The FD&C Act requires that patent information be filed with all newly submitted Section 505(b) drug applications. In addition, patent information must be filed on Form FDA 3542 within 30 days of the date of approval of a Section 505(b) drug application.¹ FDA publishes certain information from Form FDA 3542 in the Orange Book after approval of the NDA or supplement.

The Orange Book includes the patent submission date (i.e., the date on which the FDA receives patent information from the NDA holder) for each newly listed patent to facilitate assessments of whether patent information is untimely filed with respect to a pending 505(b) (2) application or ANDA.²

The patents that FDA regards as covered by the statutory provisions for submission of patent information are:

- Patents that claim the drug substance (i.e., active ingredient(s))
- Drug product patents, which include formulation/composition patents
- Method-of-use patents that claim one or more approved methods of using the approved drug product

This information, as provided by the sponsor on Form FDA 3542, will be published as described above. An NDA holder submitting information on a patent that claims both the drug substance and the drug product (and is eligible for listing on either basis) is required only to specify that the patent claims either the drug substance or the drug product.

The Addendum lists patent and exclusivity information up to January of the Edition year. The monthly Cumulative Supplements to the Annual Edition list patent and exclusivity information changes since the Annual Edition Addendum. Since all parts of this publication are subject to changes, additions, or deletions, the [Orange Book](#), updated daily, should be consulted for the most recent patent and exclusivity information.

¹ Please note that the date of approval for an NDA for a drug for which FDA intends to recommend controls under the Controlled Substances Act is the later of the date on the approval letter for the NDA or the date of issuance of the interim final rule controlling the drug (see Section 505(x) (1) and (2) of the FD&C Act).

² See 21 CFR 314.50(i) (4) and 314.94(a) (12) (vi). The submission date for patent information is determined in accordance with 21 CFR 314.53(d) (5).
